

Hi,

My real resume is available online at <https://hyan23.github.io/resume/en> (it's on GitHub Pages, **I promise no security risks**), it's always up to date, I will constantly update the information, correct typo and other errors.

From there, you can still download a PDF copy of it anytime.

Hope it's not causing too much trouble and worth your time. Thanks for your patience.

Best regards,

Haiyang Li
